GOING DEEPER // NOT DECEIVED, NO IMPURE MOTIVES // 1 THESSALONIANS 2:1-12

## **SERMON REVIEW**

What makes Jesus' and Paul's leadership so different from the leaders we see in the world when it comes to:

Money

Sex

Power/Fame

## **HUMAN LEADERSHIP**

v. 1-3 How can we know that Paul and Silas's motives were pure?

v. 5 What is flattery? What is it trying to achieve? In the context of discipleship, why is it wrong?

How does the greed of the leaders negatively impact an institution and those who work for it? The church? How does it impact what people think of it?

v. 6 When do we as human leaders use our title or position to muscle others into submission to our will? Where have you seen this done? How

well did it motivate you (for the moment and the long run)?

When have you done it?

What is wrong with leading this way? Why did Paul not lead this way?

What is the end game of all human leadership?

## **BIBLICAL SERVANT LEADERSHIP**

v. 7, 8 How are we to be like "nursing mothers" as we disciple young believers?

v. 12 "exhorted, encouraged, and charged them". How does a natural father do this with his children? How does this look when we do this so they will "walk in a manner worthy of God"?

What is the end game of all godly biblical servant leadership?
